

LHT ANODISERS LTD

Environmental Management System Manual

ENVIRONMENTAL POLICY

LHT Anodisers Ltd carries out sulphuric acid anodising of aluminium alloys to national and international standards and customer requirements for the architectural, building, aerospace, marine, rail and road transport, electronic and general engineering industries.

Our Environmental Policy is to be a responsible corporate citizen in protecting the environment. We are committed to complying with accepted environmental practices, including the commitment to meet or exceed applicable legal and other requirements, to strive for continual improvement in our environmental management system, and to minimize the creation of wastes and pollution. We will, therefore, manage our processes, our materials and our people in order to reduce the environmental impacts associated with our work.

Our prime environmental objectives are to:

- *Investigate the reduction of hazardous and toxic chemicals*
- *Reduce, reuse and recycle waste and packaging*
- *Improve the efficiency of energy usage*
- *Provide training to all employees*
- *Reduce the risk of potential accidents*
- *Ensure that IPPC Permit requirements are adhered to by all employees*

This policy will be communicated to all parties interested in the performance of our environmental management system and made available to the public.

Our compliance with these environmental objective & targets will be regularly audited and reviewed by senior management.

Signed: _____
